## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

1. Claims 1-19 are directed to an apparatus and method of installing a helical pile, the apparatus comprising: a drive mechanism which moves in a first and second position in a reciprocating fashion, said drive mechanism having an engaged and a disengaged configuration.

2. Claims 20-28 are directed to an apparatus and method of installing a helical pile, the apparatus comprising: a drive mechanism imparting rotational movement to the pile; and a soil extractor operable to extract any accumulated soil or debris from within the pile's hollow bore.

3. Claims 29-35 are directed to an apparatus to assist in the installation a helical pile comprising: a drive mechanism to impart rotational movement of said helical pile without displacement of said drive mechanism in a direction parallel to the longitudinal axis of said pile.

2. The inventions listed as Groups 1, 2, and 3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the linking technical feature is the helical pile. Since helical piles, per se, are known in the prior art, this feature cannot form the special technical feature as contemplated by rule 13..

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
